San Diego & Imperial Valley CATHOLIC SCHOOLS

Notre Dame Academy Announced as the Re-Imagine Catholic Schools Award Winner

San Diego, CA - May 17, 2018 - Notre Dame Academy (www.ndasd.org) in Carmel Valley has been named the 2018 Re-Imagine Catholic Schools Award Winner at the Annual Catholic Educators' Awards Banquet held at the Academy of Our Lady of Peace.

The Annual Catholic Educators' Awards Banquet is held to recognize contributions in Catholic education in the Diocese of San Diego. The Diocese of San Diego is comprised of 50 schools located in San Diego and Imperial counties and educates over 15,000 students.

The Re-Imagine School Award is given to a Catholic school in the Diocese of San Diego that recognizes the needs and interests of the 21st century student. Notre Dame Academy has taken the courageous step to ensure students are offered the highest quality education by adopting a Balanced Literacy approach to teaching reading and writing. Teachers have been undergoing training and support in the areas of shared reading, guided reading, read aloud, word study, independent reading, shared writing and writer's workshop. Taking on the Balanced Literacy approach allows for students to dig into content deeper, take a more active role in learning, and be challenged at their individual levels. The school has spent time and effort in explaining the benefits of this approach to parents while continuing to provide ongoing and focused professional development opportunities for their teachers.

Dr. Julie Cantillon, associate director of schools for the Diocese of San Diego, stated, "The administrators at Notre Dame Academy are wisely investing in the professional learning of their teachers and putting students at the center of their decisions."

Dear Notre Dame Academy Parents,

We have had a few parents who are concerned about generating scrip revenue and I wanted to take this opportunity to explain a little more about the program. Scrip is a program that generates funds without you having to put out any extra money. If you grocery shop and spend \$200, you will use the same exact amount paying for it with scrip. The scrip program is fundraising without selling anything, and making money while we shop for the items we would normally buy. You don't need to buy anything extra! This is free money for the school just buying what we usually buy for our families.

This is our first year and I know that \$500 sounds like a lot of money to generate, and it is. We may have set the bar high, but we only ask that you try to generate what you can. Just give it a go and try your best! We are starting a new program that has the potential to raise lots of money for NDA which will enable NDA to have another source of income besides selling candy, wrapping paper or raising tuition. After this first year, we will make the necessary adjustments for the following year depending on how the families do. Some will obviously do better than others, but please just do your best.

I put together a few examples below, so you could see how the money accumulates.
(If you spend per month, times the percentage, times 12 months for a yearly total)

Groceries: $\$400 \times 4\% = \$16 \times 12 = \$192.00$
Gas: $\$100 \times 1.5\% = \$1.50 \times 12 = \$18.00$
Restaurants: $\$100 \times 10\% = \$10.00 \times 12 = \$120$

Miscellaneous purchases per month:

Target, Macy's, Home Depot, Movies, Fast Food:

$\$200 \times 6\% = \$12.00 \times 12 = \$144.00$

During the Year:

Birthday presents, Christmas, Easter, Halloween, Misc. gifts:

$\$600.00 \times 5\% = \30

I used conservative percentages. You can pick cards or restaurants that have higher percentages. You can also have friends and family buy scrip through you and online to help during the year.

I hope this helps! I am always available to answer questions or help in any way and I will be holding scrip information meetings to help those who have questions! This program is supposed to be an easy way to help NDA earn money, not to be a source of stress! I hope to make it as easy as I can for all the families!

Thanks,

Paula Salinas

Users set parameters for what type of destination they are looking for and the app selects a bar or restaurant. The user can then order an Uber or get driving directions, their choice! The twist is that the user doesn't find out where they are going until they get there. Have fun exploring your city and the quality restaurants it provides with WildRide!
